

Automatic Hand Sanitizer Dispenser

Easy and convenient to use, One Protection contactless refillable hand sanitizing system helps to encourage good hand hygiene habits. This contactless auto spray system avoids the transmission of germs, it contains 80% alcohol and moisturising ingredients, purposely designed to kill 99.99% of viruses and bacteria. It is a slim line, sophisticated device that can be used on a counter or a desk. Perfect for use in shops, offices, pubs, gyms and hotels.

With just one touch sensor for on and off, there is no need for touching.

Simply wave your hand 5cm from the sensor to receive spray.

Battery powered enables the dispenser to be easily moved around.

Kills 99.99% of viruses and bacteria to help stop the spread of disease.
